VERTICAL GRINDER SERIES FV

Vertical grinders are extremely powerful due to their direct drive shafts. All vertical grinders have a governor who holds even under severe abrasive load the speed constant. All models have a spindle having an externally threaded 5 / 8-11 UNC and a safety start lever.

They contribute in many industries to higher productivity, quality improvements, improvements in the working environment and minimize operator fatigue.

STANDARD VERSION

Type	Max. Ø grinding disc	Idle speed	Height	Capacity	Total length	Weight	Max. air cons.	Hose dia.	
	mm	rpm	mm	kW	mm	kgs	m³/min.	mm	Zoll
FV-7-1M	180x6x22,2	6000	192	1,40	247	4,0	1,40	12,7	½"
FV-7-4M	180x6x22,2	8400	192	1,76	247	4,0	1,70	12,7	½"
FV-9BH-1M	230x10x22,2	5900	222	2,90	278	5,8	2,80	19,0	¾"

*Air connection: ⅝" BSP or NPT, Series FV-9BH: ½" BSP or NPT. (Standard: BSP)

Height of the disc to the top

VERSION WITH CUP-DISC

Type	Max. Ø cup-disc	Idle speed	Height	Capacity	Total length	Weight	Max. air cons.	Hose dia.	
	mm	rpm	mm	kW	mm	kg	m³/min.	mm	Zoll
FV-9BH-4M	150x50x22,2	4500	204	2,90	278	6,1	2,40	19,0	¾"

*Air connection: ½" BSP or NPT. (Standard: BSP)

VERSION WITH SANDING DISC

Type	Max. Ø Sanding disc	Idle speed	Height	Capacity	Total length	Weight	Max. air cons.	hose dia.	
	mm	rpm	mm	kW	mm	kgs	m³/min.	mm	Zoll
FV-7-2M	180x-x22,2	7000	192	1,54	247	4,0	1,60	12,7	½"

*Air connection: ⅝" BSP or NPT. (Standard: BSP)
