The **PA-150** is our most powerful parallel arm and can handle bolted joints up to M16 ergonomically and efficiently. It was developed for vertical working torques and, despite its compact size, can absorb torques of up to 150 Nm.

- *Torque capacity:* max. 150 Nm
- *Weight compensation:* up to 10 kg
- *Range of application:* our most powerful parallel arm

## Technical drawing

## Technical data

| Type             | Load capacity | Torque | Reach |      | Height |
|------------------|---------------|--------|-------|------|--------|
|                  |               |        | Max.  | Min. |        |
|                  | kg            | Nm     | mm    |      |        |
| PA-150-0400-0102 | 1 - 2         | 150    | 950   | 500  | 550    |
