The **PS-150 parallel arm** is our largest parallel arm, which is ideal for mounting on a table or in smaller spaces, making it highly useful for many types of installation work. It has a long reach as well as a generous working area for its size and can be used universally for tightening, riveting, testing, gluing, and many other applications.

The system features a robust steel and aluminum construction and is perfectly balanced by gas springs.

- *Torque capacity:* max. 150 Nm
- *Weight compensation:* up to 10 kg
- *Flexibility:* wide selection of tool holders and accessories
- *Range of application:* flexible working (horizontal, vertical, fixed, or swiveling)
