BENCH PRESS ZHB-ZMB

- Capacity: 111 kN
- Flexible Workshop Equipment
- Available with hand pump or with an air-hydraulic pump
- Huge accessory program for mounting on the hydraulic cylinder

Bench presses are suitable for lighter work, like pressing in and pressing out bearings and bushings, simple straightening work, etc.
Due to the compact design, these presses do not require a lot of space and can be easily integrated into the working environment. A wide range of accessories is available for mounting on the hydraulic cylinder (CFC1012).

The product range offers two different types:
- with hand pump (ZHB10)
- with air hydraulic pump (ZMB6)
- without pump and cylinder (ZB110)
